GRENADA, MISSISSIPPI, FRIDAY, NOVEMBER 16, 1923.

NUMBER 26.

METHODIST PASTORAL APPOINTMENTS MADE

Rev. R. A. Tucker and Rev. Mellville Johnson Returned to Grenada. Bishop Ainsworth's Powerful Sermon a Feature.

Greenville, Miss., Nov. 11.—Greenville was the center of North Mississippi religious activities today. The love feast was conducted by Rev. D. W. Babb. Bishop Ainsworth preached to three thousand at the morning hour in the People's Theater, which had been secured for the service in order to accommodate the immense crowds desiring to hear the bishop's sermon, which was a feature of the day. Rev. W. W. Woolard led in an earnest prayer, the congregation sang some of the great hymns of the church, the choir of the First Methodist Church inspired the great audience with two excellent anthems. The sermon by the bishop was one of the greatest ever heard on an annual conference occasion, lifting his hearers to sublime heights and filling their hearts with a greater determination to press forward as children of God. The class of elders and deacons received a brief session of ordination. The conference was held at the evening hour, at which appropriate reports were submitted. The usual resolution of thanks adopted and the conference adjourned after impressive religious services with the reading of the appointments for another year. Two new presiding elders were appointed, Rev. L. P. Wasson of Water Valley and Rev. James E. Cunningham of Aberdeen.

J. E. CULLEN ACCIDENTALLY SHOT—WOUND NOT SERIOUS

J. E. Cullen, Illinois Central engineer, was accidentally shot early Monday morning while squirrel hunting on Musselwhite Lake near Parsons station. Mr. Cullen was out in the woods perhaps a quarter of a mile from the lake. R. L. Bingham was firing an automatic pistol into the lake on the opposite side from Mr. Cullen, shooting at "didappers", when one of the bullets glanced from the water striking Mr. Cullen in the right leg just a short distance above the knee. The ball lodged in his leg. It is thought that the wound is not serious unless complications develop although it might possibly have shattered the bone. Mr. Cullen was taken to the Illinois Central hospital at Chicago that afternoon on the fast train where he is receiving the best of care and attention. He was accompanied to Chicago by Mr. Homer Weir, Illinois Central conductor.

Mr. Cullen was one of a party of campers who went to the lake Saturday afternoon to remain until Monday, taking advantage of the Armistice Day holiday. Mr. Bingham joined the party Sunday night.

Mr. Cullen is a man of family and has resided in Grenada for a number of years. His many friends here share with his family the anxiety over his condition and hope that he will soon be able to return home and resume his duties.

Christmas Bells

By F. H. SWEET

RING out in joy, O chiming bells,
For in your melody there dwells
The music glad of Christmas-tide
On every hearthstone far and wide
And rosy lips with laughter sweet
The happy songs of life repeat—
Ring out in joy.

RING out in hope, O chiming bells,
For your clear voice of patience tells
To waiting hearts whose promise yields
No golden fruit of harvest fields,
Whose garnered grain of toiling hand
Lies heaped upon a barren land—
Ring out in hope.

RING out in grief, O chiming bells,
For in your trembling echo dwells
To saddened hearts a thought of old
A picture framed in memory's gold,
A vanished face beneath the snow,
A dream of life's sweet long ago—
Ring out in grief.

RING out in cheer, O chiming bells,
For in your peal a promise dwells
To listening hearts that strive to hear,
The future's voice of hope and cheer;
For love and joy will have their birth
As snowdrops spring from icy earth—
Ring out in cheer.

RING out in peace, O chiming bells,
For Christmas-tide a message tells
To eager souls that bravely wait,
And loyal hearts too strong for fate
To crush to earth; oh, listen then
This "Peace on earth, good will to men"—
Ring out in peace.

SERVICES AT PRESBYTERIAN CHURCH

The Sentinel has been requested to announce that Rev. D. W. McIver of Rogersville, Tenn. will fill the pulpit at the Presbyterian Church next Sunday at both the morning and evening services. Mr. McIver is an able minister and his deliverances may be counted on to be well worth hearing. The public is extended a cordial invitation to attend the services.

GOVERNMENT COTTON REPORT

The tabulation of the card reports shows that there were 1907 bales of cotton, counting round as half bales, ginned in Grenada County, from the crop of 1923 prior to Nov. 1, 1923, as compared with 4398 bales ginned to Nov. 1, 1922.

The entire town of Grenada as well as the Methodist congregation are delighted to know that Rev. R. A. Tucker, presiding elder, and Rev. Mellville Johnson, pastor of the Grenada church, are to remain in Grenada for the coming year. The former is claimed by Grenada as her very own while the latter, during his pastorate here, has made for himself a place in the hearts of the people of the town and has especially endeared himself to his congregation.

GRENADA HI SCHOOL BEATS WATER VALLEY

Wins by Score of 13 to 0. Had Previously Tied Water Valley. Entire Team Plays Well.

In one of the most sensational games of the season Grenada's sterling foot ball team humbled the Water Valley gridiron men on the latter's field last Friday afternoon by a score of 13 to 0. Earlier in the season the Water Valley team had held Grenada to a scoreless tie on the home field and so both teams entered the game with a grim determination to win. At first the game remained suspended in the balance with neither side able to gain consistently. Somehow Grenada got off with a bad start but despite the bad start and conditions which were very discouraging coach Barr's warriors grew stronger and stronger until at the close of the first half they held Water Valley for downs on their own one yard line. Not even Williamson, Water Valley's stellar half back and most dependable man, was able to gain through the stone wall defense of the Grenada line.

Early in the beginning of the third quarter Grenada struck her old time form and soon things began to happen. By a succession of line bucks by Jones and Futhey and end runs by Province the ball was advanced to Water Valley's thirty-five yard line. Then it happened. With the home team at a loss to know what to expect Jones passed to Province over the line, who by some clever dodging and broken field running escaped all of Water Valley's secondary defense and ran for thirty yards for a touch down. Unfortunately captain Province injured his hip in making this run and had to leave the game. Futhey failed to kick goal and the quarter ended with the score six to nothing in Grenada's favor.

The beginning of the fourth quarter saw the losers more determined than ever to score and so thoroughly were they determined that for a time the Grenada boys lost ground. But at last the superiority of their team manifested itself and in one of the most sensational runs in local football history, Futhey, Grenada's wonderful quarter back, tore through the opposing line for ninety yards and a touch down. A pass from Jones to Burt netted another point and the game ended Grenada 13, Water Valley, 0.

The Water Valley boys deserve due credit for their plucky game with Williamson as the individual star of their team. For Grenada every boy on the team should have honorable mention. Salmon and Gammon on the ends broke up many plays and stopped end runs. Heath and Dumas at the tackle positions time after time broke through the line to throw the opposing backs for considerable losses. Martindale and Horton were impenetrable at guard and saved Grenada from being scored upon. Pope at center was in every play. Wagner at left half gained when ever called upon and made many seemingly impossible tackles. Futhey at quarter starred not only by his long run but by his consistent heady game. Jones, at full back, hit the line hard time after time for long gains and Captain Province could always be marked down to make the necessary gain around end.

All in all coach Barr's team played one of the best games of the season and did honor to the city they represent. Such a team deserves all the support the city can give and every red blooded citizen should turn out to see the boys play Winona here on Thanksgiving day.

CHARLIE HERMAN DIES TUESDAY.

Charlie Nathaniel Herman, the son of Mr. and Mrs. J. F. Herman, died Tuesday morning at 10:15 o'clock at the Grenada Hospital following a short illness, the cause of his death being pneumonia. Mr. Herman contracted a cold during the week of Oct. 28 which settled in both lungs and all that skilled medical care and loving attention could do for him was of no avail. The remains were interred Wednesday afternoon at 2:00 o'clock in Duck Hill Cemetery with ceremonies in charge of Duck Hill Masonic Lodge of which Mr. Herman was a member. The services were conducted by Rev. Mr. Sledge, pastor of the Baptist Church at Duck Hill.

Mr. Herman was born July 17, 1897 in Montgomery County a few miles southeast of Duck Hill. The family has been living just south of Grenada for nearly two years. Mr. Herman, at the time of his death, was in the employ of the Grenada Auto Co. and his faithfulness, his integrity and his diligence had greatly pleased his employers. He was ever in a good humor and had always a pleasant and ready smile for all whom he met. He was devoted to his parents and his brothers and sisters. He was a member of the Missionary Baptist Church and was true to his religious convictions.

Besides his parents, two brothers and seven sisters are left to mourn his loss and to all of them The Sentinel extends its sincere sympathy.

OBSERVES ARMISTICE DAY.

The Young People's Department of the Methodist Sunday School observed Armistice Day last Sunday with an appropriate program and fitting decorations.

This department has recently been organized and meets in the old brick parsonage where four classrooms have been furnished. The purpose of this organization is to give special training in Christian service to young people between the age of eighteen and twenty four.

GUY THOMAS PASSES AWAY

Walter Guy Thomas passed away at his home at Tie Plant last Friday afternoon at 5:30 o'clock after an illness of some months. His remains were interred at Odd Fellows Cemetery Saturday afternoon at 2:30 after services at the First Baptist Church of which he was a member, conducted by the pastor, Rev. W. E. Farr.

Mr. Thomas was born at Vaiden, Miss., Oct. 12, 1893, the son of Mr. and Mrs. W. C. Thomas. The family came to Grenada in 1912 where the deceased had resided ever since.

For nearly a year, Mr. Thomas had been suffering from a complication of troubles and he had known for some time that the end was near. But he bore up patiently and remarkably well and seemed to be resigned to his fate. He did not give up his work with the Ayer and Lord Tie Co. until just a short time before his death when he had to take to his bed. He was known by his employers as being a man who was conscientiously attentive to his duties and as one who did his work well. He had many friends who knew him as being loyal and true and ever ready to accommodate and oblige them by doing many favors, large and small. He was of a cheerful disposition and made friends of all whom he met. He will be missed and there are many who have dropped a tear over his passing.

In 1916, Mr. Thomas was married to Miss Myrtle Moore, who survives him with three small daughters, the oldest being five years of age. He leaves also five brothers as well as other relatives to all of whom The Sentinel tenders sincere sympathy.

Mrs. J. E. Bull spent a short while the first of the week in Memphis where she was the guest of her sister, Mrs. F. S. Starkey.

GETTING READY TO MOVE

The owner of the tenement which I have occupied for many years has given notice that he will furnish but little or nothing more for repairs. I am advised to be ready to move. At first this was not a very welcome notice. The surroundings here are in many respects very pleasant, and were it not for the evidence of decay, I should consider the old home good enough. But even a light wind causes it to tremble and totter, and all the braces are not sufficient to make it endure. So I am getting ready to move. It is strange how quickly one's ready to move. Selected.

BOARD OF SUPERVISORS

Board of Supervisors of said County and State met in special session on the 11th day of October, 1923, A. M. pursuant to orders entered at the regular October, 1923, meeting to comply with order of state tax commission to make change in assessments on timber and improvements on county lands.

All members and officers of said Board were present.

Ordered that question of forming separate road district of Et. 1, following petition of H. J. Ray, et al, be submitted to voters at general election, Nov. 6.

The Board then proceeded with consideration of the order of the State Tax Commission, ordering assessments of improvements on country property 50 per cent and timber assessments 300 per cent. After discussion on motion it was ordered that Committee of the Board and Attorney and assessor go to Jackson and consult with the State Tax Commission in regard to the matter of raising assessments and report the results of their interview with said Commission to the Board at its meeting on Saturday, Oct. 13th, 1923.

Ordered that the Board do now take a recess until Saturday morning at 9:30 o'clock A. M.

J. H. JAMES,

Pres. Board of Supervisors

Saturday morning, October 13th, at 8:30 o'clock A. M., the Board met pursuant to an order taken on Oct. 11th, 1923, all members of the Board being present except G. P. Cunningham.

The Board then proceeded with consideration of the order of the State Tax Commission in regard to the raising of certain assessments, and after considering same, it is ordered that the Board do now adjourn until Monday morning, Oct. 15th, 1923.

J. H. JAMES,

Pres. Board of Supervisors

Grenada County, Miss.

Monday morning, October 15th, 1923, the Board met pursuant to adjournment, with the following members present to-wit: K. Mattingly, J. H. James, and I. G. Rounsaville.

The Board then proceeded with the raising of the timber assessment of Grenada county, as per order of the State Tax Commission and after considering same, it is ordered that the Board do now adjourn until tomorrow morning, Oct. 16th, 1923 at 8:30 o'clock A. M.

J. H. JAMES,

Pres. Board of Supervisors.

Tuesday morning, October 16th, 1923, the Board met pursuant to adjournment. Members present same as on yesterday.

The Board of Supervisors of Grenada county, having gone over, reconsidered and passed upon the timber assessments as shown by the assessment rolls of said county, in compliance with the order of the State Tax Commission to raise said timber assessments 300 per cent, doth find and order as follows: That the George C. Brown Company be assessed with an additional amount of timber to the amount of 25,864,981 feet, at a value of \$2.67 per thousand, making a total additional assessment of \$69,060 and that the value of the timber already assessed to them be raised from \$27,585.00 to \$41,280 making their total timber assessment the sum of \$110,340.00.

That the Gayoso Lumber Co. be assessed with an additional amount of timber to the amount of 14,117.

interest is transferred to the prospective home. I have been consulting maps of the new country and reading descriptions of its inhabitants. One who visited it has returned, and from him I learn that it is beautiful beyond description—language breaks down in attempting to tell of what he heard while there. He says that, in order to make an investment there, he has suffered the loss of all things that he owned here, and even rejoices in what others would call making a sacrifice.

Another, whose love to me has been proven by the greatest possible test is now here. He has sent me several clusters of the most delicious fruits. After tasting them, all food here seems insipid.

Two or three times I have been down by the border of the river that forms the boundary, and have wished myself among the company of those who were singing praises to the King on the other side.

Many of my friends have moved. Before leaving they spoke of my coming later. I have seen the smile upon their faces as they passed on, and I am glad to make some new investments here, but my answer in every case is, "I am getting ready to move."

It is strange how quickly one's ready to move. Selected.

Ordered that the Board do now take a recess until Saturday morning at 9:30 o'clock A. M.

That to carry out the order of the tax commission, the Board of Supervisors of the county file that they would be compelled to apply a

200 feet at a value of \$6.25 per thousand, making a total additional of \$88,230.00 and that the value of the timber already assessed to them be raised from \$34,890 to \$51,330 making their total timber assessment the sum of \$139,560.00.

That the Dulweber Land and Timber Company be assessed with an additional amount of timber to the amount of 12,875,400 feet at a value of \$5.500 per thousand, making a total additional assessment of \$70,815.00 and that their value of the timber already assessed to them be raised from \$27,260 to \$38,225 making their total timber assessment the sum of \$109,040.

That the May Brothers be assessed with an additional amount of timber to the amount of 11,623,000 feet at a value of \$6.72 making a total additional assessment of \$78,110 and that the value of the timber already assessed to them be raised from \$30,320 to \$43,170 making their total timber assessment the sum of \$124,280.

That the Day Brothers, Gilham & Winton, Inc. be assessed with an additional amount of timber to the amount of 9,212,000 feet; at a value of \$2.50 per thousand, making a total additional assessment of \$23,030 and that the value of the timber already assessed to them be raised from \$8,450 to \$10,770 making their total timber assessment the sum of \$33,800.

The Board having found that all other timber assessments are assessed at a fair value, it is ordered that same be not changed, and it appearing to the Board that the State Tax Commission rescind its order to raise improvements on country property, it is ordered that same be not raised but remain as now assessed and approved by the Board.

To which action of the Board the said George C. Brown & Co, the Gayoso Lumber Co., the Dulweber Land & Timber Co, the May Bros., and Day Bros. Gilham & Winton, Inc., each, expected, and pray an appeal from said increase raise and changes in their said timber assessments, which is granted, and the bond for each fixed at the sum of \$500.00.

Ordered that the following named members and officers of said Board be allowed the amounts opposite their respective names for services rendered at this meeting of the Board, to-wit: K. Mattingly, 4 days \$20.00 J. H. James 4 days \$20.00, Frank Anderson 2 days \$10.00 I. G. Rounsaville 4 days \$20.00 G. P. Cunningham 1 day \$5.00 J. B. Keeton, Clerk \$12.00 D. W. Office of the State Tax Commission, Jackson, Miss.

To the Board of Supervisors of Grenada county, and the President thereof:

You will please take notice that the Tax Commission of the State of Mississippi, in formal meeting in its office in the City of Jackson, Hinds county, State of Mississippi, this day entered the following order on its minutes to-wit:

"Be it remembered that a meeting of the State Tax Commission was held in its office in the city of Jackson, Hinds county, State of Mississippi, on the 12th day of October 1923. There were present and presiding as of yesterday.

"The meeting was called to order by the Chairman and the following proceedings were had, to-wit:

"Grenada county Board objects to increases in assessments of buildings and improvements on Country property.

"The Board of Supervisors of Grenada county complained that the assessment of buildings and improvements on country lands were fixed at an equal proportion to the value of other property in other counties; and, having been advised by the tax commission that the Tax commission intended for the increase to be applied on the buildings and improvements on the lands of John Borden, because information had been furnished the commission that he had placed at least \$300,000.00 on buildings and improvements upon his lands and property in said county; and that the tax commission, did not want any increases made on said property in said county; and that the tax commission, did not want any increases made on said property of any other taxpayer thereto, the supervisors replied that the buildings and improvements on the property of the said John Borden had been increased \$300,000.00 and that in the opinion of the supervisors, said buildings and improvements belonging to him on an equality and uniformly with the other property in said county, said

"That to carry out the order of the tax commission, the Board of Supervisors of the county file that they would be compelled to apply a

per centum of increase on each and every assessment of such property on the roll; that if compelled to do so, by the tax commission, they would ever value the property;

Therefore, the tax commission decided to rescind its order in so far as same required an increase to be made on buildings and improvements in said county.

"But the increase of 300 per cent in the assessment of timber on the land roll of said county is not rescinded, and the Board of Supervisors of Grenada county is hereby directed to proceed to add the increase of 300 per cent to the timber assessment of said county according to law.

Ordered and adjudged this the 12th day of October, 1923.

Done in the office of the State Tax Commission, this the 12th day of October, 1923.

D. L. THOMPSON, Chairman.

Ordered that the Board do now adjourn until court in course.

J. I. Mitchell, J. C. Whitten S. W. Williams, et al.

To the Honorable Board of Supervisors of Grenada county:

We, the undersigned committee appointed by the Board to investigate and report whether the petition of T. M. Mitchell and others asking that a levy of ten mills special tax be levied upon the taxable property of the Rosebloom Consolidated School District for maintenance of said school during the session of 1923-24 having examined said petition and compared same with the registration and poll books and assessment rolls of said county find that said petition contains a major portion of the qualified electors of said consolidated school district, and is otherwise in legal form and we recommend that same be granted.

Respectfully submitted,
G. P. Cunningham
Frank Anderson

It appearing to the Board from the foregoing report of the committee of this Board that the petition of T. M. Mitchell et al asking that a special levy of 10 mills on all the taxable property of the Rosebloom Consolidated school District in Grenada county, be levied for school year 1923-24 for the purpose of maintaining said school, contains a majority of the qualified electors of said Rosebloom Consolidated School District and otherwise complies with the law, and that it will be to the interest of said Rosebloom Consolidated School District to grant said petition and make said special levy of taxes as therein petitioned for, it is therefore ordered that said petition be and the same is hereby granted and a special levy of 10 mills be levied upon all of the taxable property in said Rosebloom Consolidated School District for the purpose of maintaining said school.

There's no peace and little rest for the one who suffers from a bad back and distressing urinary disorders. Grenada people recommend Doan's Kidney Pills. Ask your neighbor! Be guided by their experience.

Mrs. W. A. Thompson, 632 Kershaw St., Grenada, says: "My kidneys were in a terrible condition. They acted too often and caused shyness. My back hurt all the time and I couldn't rest at night. The doctor told me my kidneys were disordered. As I had a box of Doan's Kidney Pills I thought I would try them. They did just as represented in my case and two boxes cured me. I recommend Doan's willingly."

Mrs. Thompson gave the above statement June 13, 1918 and on April 12, 1922, she said: "I know there is no medicine like Doan's Kidney Pills for anyone troubled with weak kidneys. Several years ago my kidneys bothered me but Doan's cured me of the trouble."

THE PARABLE OF THE DONKEY

The Donkey stretches his neck and injures the fence in trying to reach the thistles in the neighboring pasture when clover in his own pasture is knee high.

And Human Beings are not unlike the Donkey at times.

There are sensible Human Beings in Mississippi and Alabama who are today buying lands in distant states for the purpose of growing citrus fruits. These lands are costing from \$350 to \$500 an acre. The Purchaser contracts to have his land prepared for cultivation at a cost of from \$20 to \$40 an acre. After that he has to pay to have his lands irrigated and must wait several years to see whether his investment "pans out."

In the coast counties of Mississippi and Alabama the best lands in the United States for citrus growing can be purchased at prices ranging from \$20 to \$50 an acre. The land can be put into condition for cultivation for \$8 to \$15 an acre and IRRIGATION IS NOT NECESSARY. These lands will produce other crops and earn something while the citrus trees are reaching the commercial bearing stage.

Investigation shows that most of those from these states buying in distant states for this purpose are merchants, bankers, and professional men—very few farmers. Purchases are made with the idea of continuing to "live at home" here and owning a wealth producing orange grove elsewhere. Citrus fruit, like all other crops, must be given personal attention if money is to be made from the effort.

THE GULF, MOBILE AND NORTHERN RAILROAD has fostered the organization of the Alabama-Mississippi Improvement Association for the development of the territory served by this Road. It is as much interested in the development of Tennessee and North Mississippi as it is in the development of South Mississippi and Alabama. It has discouraged migration from one section of these states to another. Its effort is to bring people from the crowded agricultural regions of other sections into this territory—benefiting both.

But it wants to call the attention of those in Mississippi and Alabama, to whom the pastures afar off look so inviting, to the citrus lands of these two states and further to urge that investigation of these lands be made before buying thousands of miles away. In other words, we would advise that if a merchant, banker, doctor, or anyone else in Alabama or Mississippi desire to own an orange grove that they buy the land and plant that grove in their own state, among their own kind of people and where they can at least see it with reasonable expense once in a twelve-month. Donkeys sometimes get the thistles in the other pasture but they generally regret it almost immediately. Why be a donkey?

ANNOUNCEMENTS

The Sentinel is authorized to make the following announcements, subject to the Democratic primaries in February:
For City Marshal: C. W. Thompson

THE PROPOSED CHARTER AMENDMENT.

The proposed amendment to the city charter which appeared for the first time in The Sentinel last week will become a law unless a petition is filed against its adoption by the qualified electors of the city of Grenada.

The amendment purposes to make the duties of the city marshal only those of a police officer and to have the duties now performed by him as tax assessor and collector taken over by the city recorder who shall be appointed by the mayor and board of aldermen. It also purposes doing away with the office of street commissioner and add his duties to those to be assumed by the marshal. Another part of the amendment abolishes the office of city treasurer.

Under the present system, it is true that the marshal has very little time for the performance of his police duties. He has to remain at the city hall a great part of his time and the city, in a sense, is without police protection a great part of the time. To make his duties strictly those of a police officer, would of course mean greater police protection and that is something we need in Grenada. We believe that the town is large enough to warrant maintaining a police force of four men, at least, two for day duty and two on the night force. One man cannot properly handle the work in either daytime or during the night. It is true that Grenada is one of the most lawabiding towns in the state but there are times when more than one officer is needed and we believe that these times would warrant the added expense of increasing the police force.

By adding the duties of the assessing and collecting of taxes to those already exercised by the city recorder, it would mean that it would require a man's full time and this would enable the city to have a man at the mayor's office at all times who would be enabled to keep the city's books up to date and be able to give at a moment's notice whatever information is desired about the city's affairs. It would mean that none but a capable man could hold the job and would make him directly responsible to the board of aldermen, at all times.

The office of city treasurer is one that is usually filled by a Confederate veteran or a cripple and is practically a pension job. The work is done by the bank that is the city depository and the abolishment of this office would not be felt as a loss. The salary is only a few dollars monthly and if the office is not abolished it will not materially affect the city's financial condition.

We believe that the amendment would mean that the city's business would be handled more expeditiously and in a more sensible and economical way. It is true that it would give the aldermen more power but they have a great deal of power now and a little more would not hurt.

If there is no protest, the changes will go into effect on and after the first Monday in May, 1924, when the next city administration goes into office.

ARE WE CRAZY? SOMEBODY HEAD US.

Governor Whitfield, though an optimist, is forced to a pessimistic view of Mississippi's condition, which he says is reached after a personal survey from border to border—devastated forests, decreased production, rural homes deserted, local college graduates leaving for more fruitful fields.

The decreased lumber supply has been foreseen for years; decreased production has been preached by farmers and advocates of increased prices for farm products for several years, rural homes are being deserted in nearly all southern states; young men have ever sought more fruitful fields.

The slogan in Mississippi has been, "The state owes every child an education." The idea has been propagandized, and now generally prevails. Just to what extent this obligation rests on the State cannot now be told, but we have predicted that it would reach a conviction that first a consolidated school in every neighborhood would be the demand, followed later by a demand for an agricultural high school in every county. A university for West Mississippi, then for South Mississippi, will be the eventual demand. The taxpayer who counts his money before he spends it will be as chaff in the wind before the slogan, "A university for every section, in reach of every child." Hot lunches at the public expense, will be followed by books and clothes, paid for by taxes. Medical, dental and nursery attention will follow quite logically. Some of these we have now. "The State owes every child good teeth, good health, and a nipple." Who will deny it? As many acclaim it. As children finish the high school, they will demand further instruction; when the highest instruction is furnished, what will prevent a demand for technical schools, state business, law, professional and business schools? There is no end to the vision nor demand for its realization if generally indulged. It is a species of socialism as seductive as the rainbow gold, and holds out, in the aggregate, the realization of dreams which could never be realized in the individual and particular—and a taxpaying nightmare cometh.—Biloxi Daily Herald.

WHO WOULD BE HURT?

An eastern railroad committee has just revealed that on four of the large railroads of the country employing 427,900 persons, there are 495,282 stockholders and bondholders. These roads are the Baltimore & Ohio, the Northern Pacific, the Pennsylvania and the New York Central.

In dealing with the railroad problem Congress will listen to a number of demagogues who will set the welkin ringing with their attack upon the mythical little group of railroad plutocrats who are stealing the public's money. These people will obscure the true situation.

A very considerable section of the public obviously has its money in the railroads, and another section—the employees—though not as large a group as the stockholders on the four railroads noted, is also dependent upon the prosperity and continued income of the railroads for its welfare and its living.—Grand Rapids (Mich.) Press.

THE PARABLE OF THE DONKEY.

We are carrying this week the advertisement of the Gulf, Mobile & Northern Railroad with the caption, "The Parable

of the Donkey." It is in a sense not an advertisement but an editorial or preachment advising the people to grasp the opportunities that are at their very door instead of "reaching through the fence" for the things at a distance. It is human nature to desire that that is afar off. "Over yonder" seems to be full of glittering promise and holds a great deal more attraction for us than right at home where we have the things to which we have grown accustomed and which we take as a matter of course.

If all men were satisfied with their lots, the world would be at a standstill. There would be no progress. There would be no new inventions. Life would move along in the same old rut and would become unbearable. Men are ever striving for improvement and are trying to better the conditions surrounding them. That is natural. If we took things just as they came and did not try to avoid the unpleasant things and did not seek that which is both pleasant and profitable, this old world would be a dreary place to live in.

The advertisement mentioned above is peculiarly applicable at this time. There are a great number of people in Mississippi and a few in and around Grenada who have recently made purchases of land in the Rio Grande Valley of Texas. They are full of glowing accounts of the possibilities within reach of landowners in that section. We know nothing of that territory nor do we know anything of what can be done there. But we do know that there are unlimited opportunities in our own county and our own state for men who will grasp them and will aggressively take advantage of them. They don't have to go to Texas. They may go there and amass great wealth. But they may go and come back sadder and wiser men. Look around you. Take what is offered you here among your own people and among those that love you. Don't be a stranger in a strange land. Stay at home.

Read what the Gulf, Mobile and Northern Railroad has to say. It is worth consideration.

A speaker at a recent denominational conference was

much concerned about American home life. He said in part: "The new feminism is drawing the best of our womanhood from marriage and motherhood, while loose ideals on the permanence of marriage are being imported by Russian barefoot dancers. The hand that stops rocking the cradle begins to rock the boat of our family life."

The sweet modern girl when she gets in a street car doesn't hesitate a moment to use her lipstick or rouge rag, but she would consider it "awfully horrid" to trim her dainty finger-nails in public—the absolutely modest charmer of today and well—we say, and all the Newcomb girls will agree with us, that she is a world-beater.—N. O. Daily States.

David Starr Jordan, president emeritus of Leland Stanford Junior University, said: "The bane of higher education is the desire to substitute system and drill for inspiration, to develop methods and standards in place of intellect. The university, as such, does not give opinions, but means to form them."

You may be rich and be pure; but it will cost you a struggle.—H. W. H. Beecher.

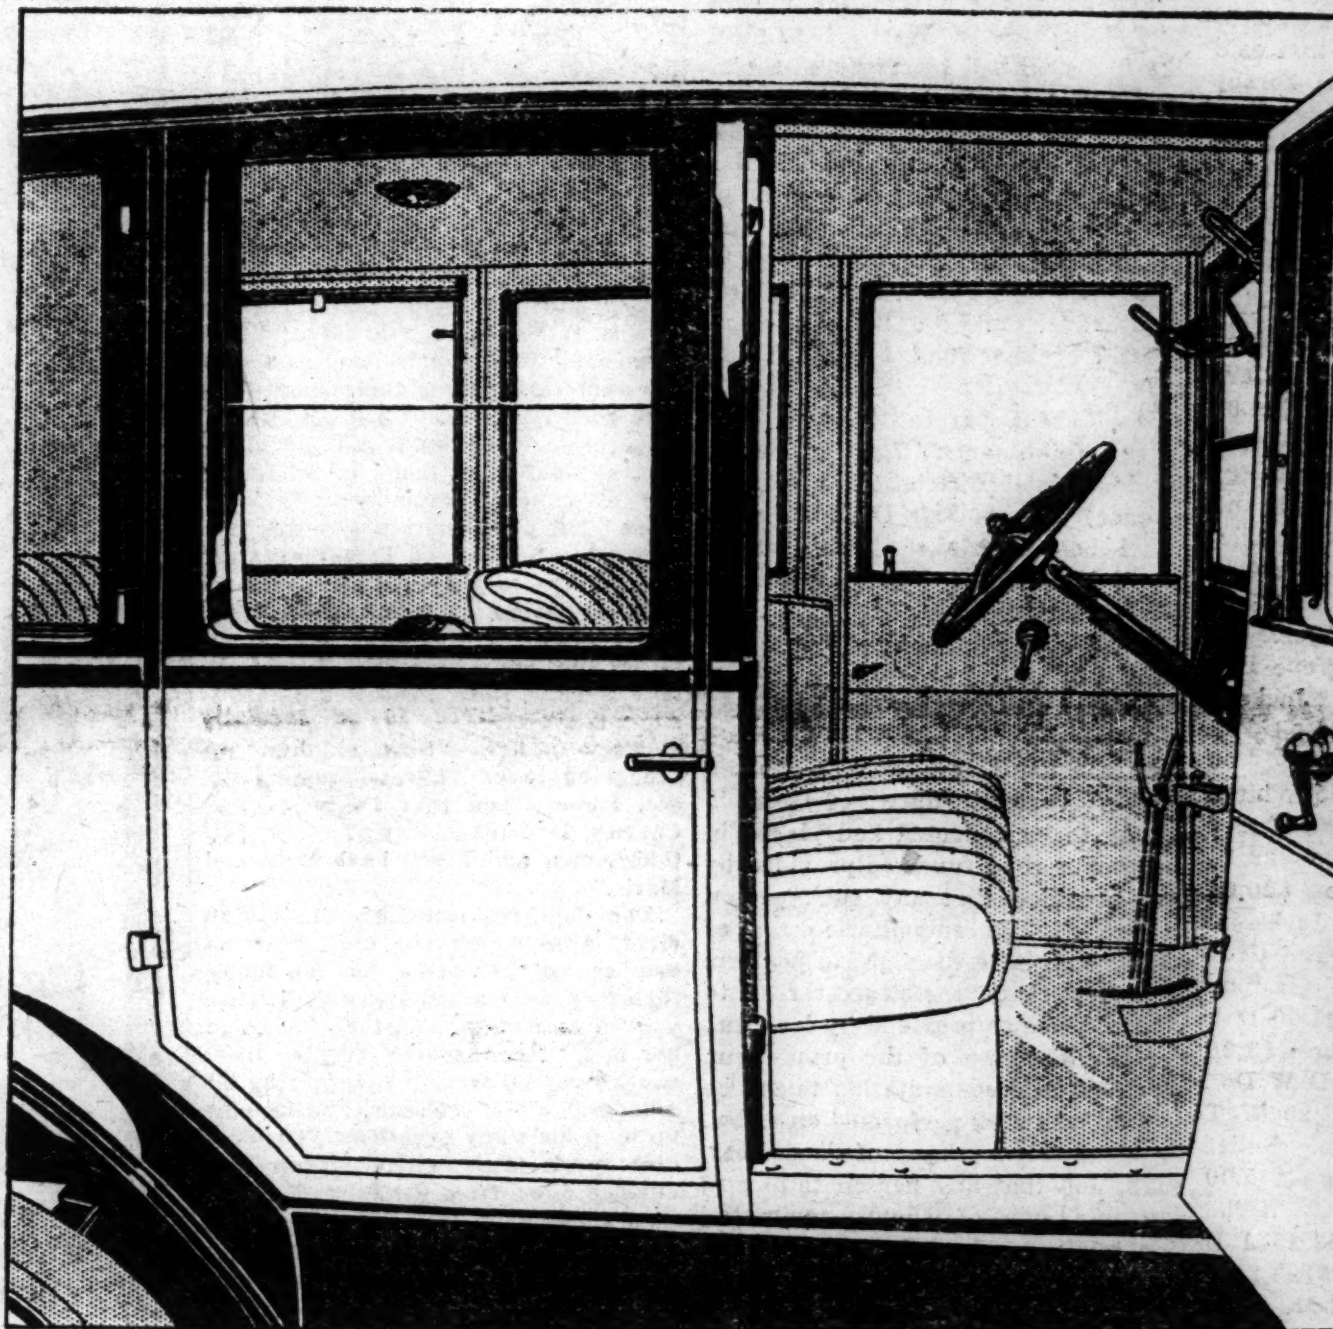

I should say sincerity, a deep, great, genuine sincerity, is the first characteristic of all men in any way heroic.—Carlyle.

Four-Door Sedan Interior Features

A cozy, attractive interior has been achieved in the Ford Four-door Sedan. No detail that would add to its appearance and comfort has been omitted.

Broadcloth upholstery, soft brown with a slightly darker stripe, harmonizes with the lighter shade in the head lining. Silk poplin shades are provided for windows.

Ornamental interior fittings including door handles, dome light base, window regulators and shade mountings are finished in nickel.

Doors are made of one solid sheet of heavy aluminum, very light and strong. Copper covered rubber door bumpers prevent rattling.

A water tight windshield, easy and positive to adjust, cowl ventilator, and visor are other much appreciated improvements.

At the new low price of \$685, f. o. b. Detroit, this good looking Sedan represents exceptional closed car value.

"I don't blame you for sticking to Dainty Flour when you can make biscuits like this with it!"

"Absolutely pure? Nothing but flour, with no phosphate or anything else added?"

"Well, I'm certainly going to get some myself. I had heard Dainty is made of only the best part of the finest wheat, that it's as good as flour could possibly be. Now that I have eaten some biscuits made of Dainty, I know that's so. I bake pretty well myself, but I never get this kind of lightness, tenderness and flavor in what I make. It will be Dainty for me from now on."

The difference between the price of Dainty and ordinary flour is less than it has been in years, due to favorable crop conditions.

CITY COUNCIL

(Continued from Sept. 6, 1923.)

The following resolution was introduced, its adoption moved and seconded and put to a vote, and all Aldermen voting in favor of its passage, it was declared duly adopted and ordered spread on the Minutes as follows:

A resolution adjudging the publication of the resolution providing for the curbing, guttering and storm sewer and paving of certain portions of certain streets as aforesaid in the City of Grenada, Miss., to have been legally and properly made and adjudging that no sufficient protest against said respective improvements or any part thereof has been filed, and making final the intention of this Board to have said portions of said respective streets so specially improved by the City's paying the cost of said improvements at street intersections and one-third of the cost thereof at places other than street intersections, and by abutting property owners on each side of said portions of said respective streets paying one-third of the cost thereof, and ordering that said improvements be proceeded with; Be it resolved by the Mayor and Aldermen of the City of Grenada, Miss.

Whereas on the 6th day of August, 1923, the Mayor and Aldermen of this City by resolution of that date, and in pursuance of the City charter, declaring the paving, curbing, guttering and storm sewer of certain portions of certain streets to be necessary, and caused said resolution to be duly published as required by the City charter; same having been duly published in the Grenada Sentinel, a newspaper published and having a general circulation in said city, which publication is hereby declared and found and adjudged to have been duly, legally and properly made, in the issues of said newspaper dated and published August 10th, 17th, and 24th, 1923, respectively as required by City charter, and

Whereas a majority of the resident owners of property on those respective portions of said streets to be improved thereby, or property owners actually occupying property by them and included within those respective portions of said streets so ordered to be specially improved, have not up to this time filed a protest in writing against improvements, or any part thereof with the Mayor and Aldermen or with the City Recorder and Clerk of this Board, and Mayor and Aldermen hereby declare and adjudge that no such protest has ever been filed or presented, and no protest by a majority of the owners of property in any portion of the said respective streets has ever been filed or presented against said improvements, or any part thereof; Be it Resolved

1. That said respective portions of said streets aforesaid and as herein above described be paved with sheet asphalt and curbed, guttered and storm sewer according to the plans, specifications and drawings therefor prepared by J. H. Dorrah, Engineer, and adopted by this Board and now on file, and that the owners of each lot or parcel of ground abutting on those parts of said respective streets where same are to be so specially improved as herein above described, shall each have and specially improve as herein provided, and according to said plans, specifications and drawings one third of the entire width of said streets when same are to be paved in front or lying along their said property and abutting same, the owners of property on one side of said respective streets to so pave one-third of the width thereof so ordered, to be paid or to be respectively subject to special assessment against their respective property so liable for the cost thereof, as provided by the resolution of this Board under the City charter.

2. That the Street Commissioner of said city be and he is hereby directed to make report to this Board as soon as practicable hereafter showing the separate pieces of property abutting on those respective portions of said streets so ordered to be improved as above described, and showing the names of the respective owners thereof the width of the paving in front of or lying along and abutting on each lot or piece of ground on said respective portions of said streets, together with all such other data as will enable the Mayor and Aldermen to make and levy special assessments against said respective pieces of property or lots and parts of lots to pay the cost and expense thereof as herein provided.

3. That this resolution take effect and be in force from and after passage. S. T. Tatum, Mayor.

E. C. Neely, Recorder.
On motion duly seconded and voted for by all of the Aldermen, it

is hereby ordered that the Street Commissioner of this city proceed to the plans, specifications and drawings adopted therefor, the special improvements ordered to be made on those certain parts of Main, Second, Harvey, Line, Oak, South, Margin and Green Streets in said City. By resolution of this Board at this meeting provided that this order shall not interfere with nor in any way impair the rights of abutting property owners to make the improvements required of them for themselves as allowed by City charter and a resolution of this Board as therein provided.

Motion put to reserve the bids and open same and decide whether if any, would be accepted as satisfactory. Roll call showed a unanimous vote of "Aye."

On motion put, seconded and carried all bids were rejected until and when bids will be again received on next Monday, September 17th.

Ordered that the Board adjourn until September, 17th, 1923, at 2:30 P. M.

S. T. TATUM, Mayor

SALVATION ARMY REPRESENTATIVE IN GRENADA

B. H. Runyan, Salvation Army representative of the Girls' Rescue Department of Dixie Division headquarters at Birmingham, Ala., arrived in Grenada Wednesday and called on The Sentinel office Wednesday afternoon. Mr. Runyan is here in the interest of his work and hoped that he might make, through the columns of this paper, a statement or report of the work done during the past year in this division but time and space prevented this. Mr. Runyan states that he hopes to interest a committee of workers to make a canvass soon in Grenada for funds to apply on the expense budget of the girls' home at Birmingham. He says that this home serves Mississippi in its effort to aid the wayward girl in her distress and sorrow and he states further that the Salvation Army cared for more than 350 cases through this department the past year, 130 of which came from this state. The Salvation Army represents the unfortunate class that is not generally reached otherwise and it is hoped at this time that the effort to raise finances will be successful. It is hoped by the Army that everyone will "do his bit" when called on.

BIG CARNIVAL SATURDAY

Many unique and interesting attractions are promised those who attend the Carnival to be given on the square Saturday afternoon and evening by the Girls' Reserve Club of the Grenada High School.

Should the weather be unfavorable for an outdoor program, the Carnival will be moved into store recently vacated by the Grenada Drug Company.

Beautifully decorated booths, attractive costumes, comical clowns, dainty refreshments, harmless jokes, fun and frolic will characterize this occasion. The music will be furnished by the Grenada Orchestra.

Overland Champion Is Farmer's Friend

New Closed Model Is Beautiful All-Family Car with
Wonderful Utility Qualifications

At last the farmer has been given a closed car of superior finish inside and outside, that he can utilize for various farm jobs and "chores" with the same cheerful abandon as he does his open touring car.

Thousands of farmers have expressed the opinion that they would gladly use closed cars if they could press them into practical work and get out of them the same all-around service the touring car provides.

This has been the farmer's winning argument for the touring car over the closed car for some years and it is admittedly a reasonable one. "Practical service on the farm means the hauling of grain and other material of a highly "spillable" nature. A load of bran or shorts for instance leaves a car resembling the interior of a feed grinding room. Whole grain, despite every precaution, will persist in "creeping" out of the bags and scatter to every corner and crevice of the car.

Summing up "practical service" for the farmer means the hauling of milk cans, live poultry, root crops, cans of kerosene, machinery, oil, household supplies, garden tools, implement parts, rolls of belting and a long list of every conceivable sort of usable material on the farm from wire fencing to an occasional live calf.

No wonder the farmer hesitated to invest his money in a closed car. But now the wonder ceases with the advent of the new Overland closed car, fittingly named the Champion, for the good and logical reason that at \$1598 it loads the world in closed car values and "champions" the cause of the farmer in every respect.

This new model, having as many personalities as a South American, can proudly claim the distinction of being called "America's most versatile car" for in introducing the Champion, Willys-Overland has succeeded in bringing out something absolutely novel and radically unique.

In fact, a type of motor car that the farmer has long wished for—and now has. It is probably the most extraordinarily useful car for the farmer that has ever been produced, with an all-steel body built on a standard Overland chassis cradled on the famous Triplex springs and powered with the larger Overland engine. Exclusive features, utilities and economies mark this model as a remarkably convenient car, warranted to give the utmost in closed car benefits to the farmer.

In the Champion, the rear seat and upholstery is entirely removable, providing fifty cubic feet of clear carrying space. Apart from this, both front and rear seats quickly adjust forward and backward. The front seat adjusts to three positions so that a tall driver can move it back to drive without leg cramp and a short driver can move it forward so as to reach the pedals without stretching. The rear seat can be adjusted backward so that rear seat passengers will not be crowded when the front seat is moved back.

Another clever feature of this car and characteristic of the unusual foresight in design, is the arrangement of both front and rear seats which with the upholstery can be entirely removed and made up into a luxurious bed in the car, occupying the whole length and width of the car. What a boon to the farmer and his family who want to spend the night away from home on a little hunting jaunt.

But this does not end the many amazing advantages included in the Champion and perhaps the most outstanding superiority from the farmer's viewpoint is the fifty cubic feet of space obtainable in the car by removing the rear seat with the upholstery. This arrangement leaves an absolutely clear carrying space capable of real service to the farmer who can load his tools, bags of fodder, produce, and so forth, into the car

through the wide rear door, with the satisfaction of knowing that the car can be thoroughly cleaned out later and the rear seat installed for passenger trips. The long grain Spanish upholstery is washable and wearable, to say nothing of being comfortable.

Then on the back of the car is a commodious trunk of ample proportions with a warranted lock, in which there is plenty of room for personal effects when traveling or shopping in town.

The Champion is solidly built with that thoroughness of workmanship characteristic of all Willys-Overland products. The unusually clever general utility points of this exceptional car are the result of long and careful study on the part of the designers, who had in mind at all times the farmer and his particular needs, and for this reason, the Champion will have a strong appeal to the man living away from the metropolitan centers.

The Difference is Finish

THE famous Willys-Knight Coupe-Sedan is now available in two finishes: De Luxe, in rich blue, nickel trimmed, with black superstructure and running gear, at newly reduced price; and Standard, by request, entirely in black, with washable Spanish long grain upholstery, at a still greater price saving. Doors front and rear—no seat climbing! A demonstration will reveal the reason for this fine car's great popularity.

MASTICATION

When you bite, you exert a pressure of from one hundred and twenty-five to two hundred and fifty pounds. When nature gave us our powerful machinery for chewing, she expected us to use it thoroughly.

Our teeth and jaws, normally, have all of the force that is needed to break up, mash and macerate our food so that it will be acceptable to the stomach.

The stomach can do its work properly if the mouth has done its duty and the intestines cannot do their work unless the teeth and stomach have finished their part.

Chew every particle of your food thoroughly so that the food will not only be finely separated but will also be properly mixed with saliva.

Food is expensive and energy is valuable. Turn your food into energy.

Cleft Palate

By Rea Proctor McGee, D. D. S., M. D., Editor "Oral Hygiene"

The roof of the mouth is called the palate. There are two parts to the hard bony part surrounded by teeth, which is naturally called the hard palate, and the soft part that is so sensitive, at the back of the mouth, called the soft palate.

Some unfortunate children are born with a separation of the palate lengthwise. In these cases the nose and mouth open into each other. It is very difficult to feed cleft palate children and if they do grow up, they have a lifetime of suffering and embarrassment. They cannot speak distinctly and have great difficulty with the fluids of the mouth and nose. Usually there is a fissure in the upper lip extending from the nostril through the border of the upper lip.

Two methods are used to give relief to these children. One is to perform an operation, or rather a series of operations, to close the roof of the mouth and the opening in the lip.

The other way is to make a plate that will mechanically cover the opening in the palate. The nature of the deformity makes the wearing of this plate very unpleasant for the patient. When a child is born with a bare-

lip and cleft palate, the first thing to do is to get a cleft palate nursing nipple, because these children are so very hard to feed. Then have the palate closed as early as possible. If these children are successfully operated on before they learn to talk, the voice will be normal. If the cleft is left until the child becomes accustomed to the faculty use of the tongue that is necessary with the open palate, his speech will never be perfected.

Inactive Liver

"I have had trouble with an inactive liver," wrote Mrs. S. Nichols, of 4412 Spencer St., Houston, Texas. "When I would get constipated, I would feel a tight, dizzy feeling in my head. To get up in the morning with a tightness in the head and a tremble feeling is often a sign that the stomach is out of order. For this I took **Thompson's Black-Draught**, and without a doubt can say I have never known an equal to any liver medicine. It not only cleans the liver, but leaves you in such a good condition. I have had a long time when food does not seem to get well, or the stomach is a little sour."

Two Lives Spent in Helping Sick People

By V. M. Pierce, M.D.

Years ago, my father, Dr. V. M. Pierce, then a young doctor, was called to the sick, diagnosed their diseases and prescribed medicines to cure them. Two of his prescriptions were so uniformly successful that he decided to give out to the world. Giving up his medical practice, he began making a special remedy for women, he called "Favorite Prescription"; the "Golden Vegetable Compound," "Golden Discovery." He then added other remedies to his list, and he also established a "Ladies' Hotel and Surgical Bureau," to which people come for cure over this country for the diagnosis and treatment of its large number of diagnosticians, analysts, gynecologists, surgeons and nurses. It was natural that I should follow in the footsteps of my father, attending two of the best medical colleges in the U. S. A., and when Dr. R. V. Pierce died I was ready to "carry on." As directing head of the "Invalids' Hotel," I have had the opportunity to observe thousands of cases of the disease, thousands of analyses, unconnected therewith. And in addition to the Dr. Pierce Line of family medicines is An-uric (anti-uric acid) Tablets to combat kidney disease which, after heart disease, pneumonia and tuberculosis, causes more untimely deaths than any other human ailment.

I have just recently placed An-uric Tablets within the reach of every family in the South. If you have dizzy spells, lame back, backache, unexplained headaches, gout, rheumatic pains, or dull, drowsy spells, coupled with irregular, too frequent or painful passages of the kidney secretions, treat the trouble with An-uric. Get a bottle from your nearest druggist, or send for a four-day trial treatment to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y.

STOP THAT ITCHING

If you suffer from any form of skin disease, such as Eczema, Itch, Tetter, Cracked Hands, Pale Feet, Oozing, Old Sores and Sores on Children, Scrofulous Eruptions or any other skin disease, we will send you a jar of Blue Line Remedy on a guarantee will not stain your clothing and has a pleasant odor.

Puts a Halo on Another Head

Artist Finds New Place for Circle Because of a Service to Mankind

AVID SPENCER looked again at his watch with some anxiety. The hospitality of the old southern home had been lavish, the exhibition of his paintings had been successful beyond his hopes, there had been congratulations, and flowers, and commissions. Quite overwhelmed with courtesies and attentions, charmed by the quaintness and beauty and customs and scenes new to him, the artist longed to linger, and was loth to leave the old city. But the northern train that he must take was almost due, the station was distant, and his hosts had seemingly forgotten all about it, until they suddenly appeared with apologies and delivered him to the black coachman and the family coach. Fortunately, the train, burdened with its load of Christmas cheer, was late, also, so that when it moved on Spencer was among its passengers.

The rather monotonous landscape threw him back upon reflection, and he found himself reviewing the sights and experiences of his visit with pleasant amusement. Again he witnessed the bargaining of the old market. "Is you got enny alge?" "I ain't sed dat I ain't." "I ain't axed yer is yo' ain't, I axed yer ain't yo' is." He recalled the curious operations of the revival meeting that had so illustrated the picturesqueness of negro character and hummed to himself the song that had there been so intensely sung:

Dere's a halo on His hald,
A halo, oh my Lawd.
But dere's one for me He sed,
A crown ob glory wen I'm dald.
A halo, oh my Lawd.

Dat's de kind ob hat ter git,
A halo, oh my Lawd.
In rain or shine hit's boun' ter sit,
I sholy am a-wantin' hit,
A halo, oh my Lawd.

And I kin feel hit sproutin' now,
A halo, oh my Lawd.
A crown ob shinin' on my brow,
Each time to Him I mek a bow,
A halo, oh my Lawd.

As the train sped on the artist's reminiscences were interrupted by the voices of the conductor and one of the passengers. "But this train does not stop at Redfield," the conductor was saying, as he looked at the old man's ticket. "It must sure stop this time," answered the passenger; "I just got to see Jim once more before he goes. I only got the message this morning. I want to wish him a merry Christmas and a happy New Year where he's goin'."

The conductor hesitated, then seemed to yield as he passed on, and the old man sat back in his seat, unaware of the atmosphere of sympathy around him. Shortly after the bell rope was pulled, the train drew to a halt, and kindly looks followed him down the aisle and on to the platform of the little station.

The incident was barely finished and the train had attained but little headway when there was a sudden and terrible jolt, followed by a crash and the bumping of the cars over the ties, then a stop and an affrighted silence, broken by the voice of the Pullman porter, crying out, "We's run through an open switch and we's wrecked, but ne' min', de train am standin' on de groun'." Engine, baggage cars and dining car were off and broken, but the Pullmans remained on the track. "If we hadn't stopped at Redfield," said the conductor, "we'd 'a' been going forty miles an hour and all heaped up at the bottom of the embankment."

In the artist's studio today there is a picture of the Christmas Christ, with the halo that believing love has placed upon His head. And just below it another halo rests upon the head of an old man, pictured there because of his unconscious but real service of mankind.

RING OUT

Ring out! Ring out! ye happy bells,
and make a joyous lay,
For Christ the child has come to us
and we would have him stay;
Make ev'ry hill and valley ring, all
earth and sky with cheer,
For we who have received the Christ
would show him welcome here.

SIX DAYS FOR TWO DAYS

A colorful and highly picturesque original screen story has been told by Elinor Glyn, the famous English writer, in "Six Days," which will be the attraction at the Opera House Tuesday and Wednesday. "Six Days" was produced for Goldwyn Pictures Corporation by Charles Babin, one of the most highly esteemed directors in the industry. In her new story the famous author of "Three Weeks" has developed a story that is rapid and absorbing in action, with characters that appeal to the sympathies and with thrills and romance that lend themselves to the picture form of presentation.

The picture is brimful of action and drama and has a number of spectacular and sensational scenes. All picture lovers should not miss seeing this play which has received unanimous approbation where shown.

CARD OF THANKS

We want to express our sincere appreciation of the many kindnesses and the many helpful acts and words during the long illness and following the death of our dear husband and father. Everybody was so good to us that words are inadequate to express our gratitude. May God bless each of you is our prayer.

SOUTHERN STEERS TOP AND DRESS OUT WELL.

That the South can produce cattle that sell at the top of the market in competition with natives and also dress out as well as the latter is attested by Joe J. King, the well-known banker and plantation owner of Tallahatchie County, Miss.

On Tuesday of this week Mr. King marketed here three long yearling Hereford steers at \$12.25 per cwt, the highest price paid for cattle locally in six weeks and within 25c of the top so far the current year. These cattle were cut back from a load of yearlings Mr. King sold here last spring and have been fed for practically 12 months, being conditioned in cooperation with the Mississippi A. & M. College, of which Mr. Paul F. Newell is Extension Animal Husbandman. The steers were exhibited at the recent Grenada, Miss., Fair and won first

premium, taking down \$200 in cash. The cattle were bought by Swift & Company at this market and the packer has furnished the following information: Steer No. 1, weight 1080 lbs. cost \$12.25, dressed 62.72 percent; steer No. 2 weight 1020 lbs. same cost, dressed 65.40 percent; steer No. 3, weight 940 lbs. same cost, dressed 61.6 percent.

When it is borne in mind that the dressing percentages of the prize winning carload lots of beefs at the Chicago International generally range from 62 to 65 percent, the beef outturn of these southern raised and southern fed yearlings is quite remarkable.

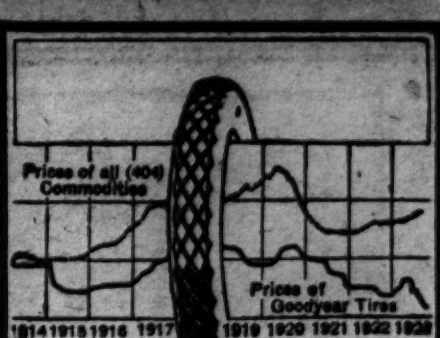

Mr. King, it will be recalled, is the man, who in July 2, 1918, started Corn Belt feeders by selling a drove of fed steers here averaging 1285 lbs. at \$17.70 per cwt., which up to that time established a record for the market.—Daily National Live Stock Reporter.
